### Experience

**CTO/OPENAI** 2018-PRES

Got bored with advertising so I pivoted to AI right before it was cool.  
Led development of ChatGPT (AI chatbot), driving \$300B valuation.

**VP ENGINEERING, ADS/GOOGLE** 2012-2018

Led engineering for AdSense (#1 Internet ad service), driving \$200 billion in ARR. Led AlphaFold (and won a Nobel) in my free time.

**CO-FOUNDER, CTO/YOUTUBE** 2005-2006

Hacked together YouTube in my spare time during my PhD. Exited when Google (search company) acquired my stake for \$3 billion USD

### Education

**PHD, COMPUTER SCIENCE/STANFORD UNIVERSITY** 2004-2005

Locked in. Advised by Ilya Sutskever and Bill Gates. Invented machine learning. Published 36 papers, graduated with an h-index of 24,321.

**MS, COMPUTER SCIENCE/STANFORD UNIVERSITY** 2004

Boston got a little too cold for me. 4.3 GPA (fell off, partied too much).

**BS, COMPUTER SCIENCE, SEX/HARVARD UNIVERSITY** 2004

Full ride to Harvard University. Published AlexNet paper. 8.2 GPA.
